# FOR THE SOCIETY

# *FOR THE SOCIETY*

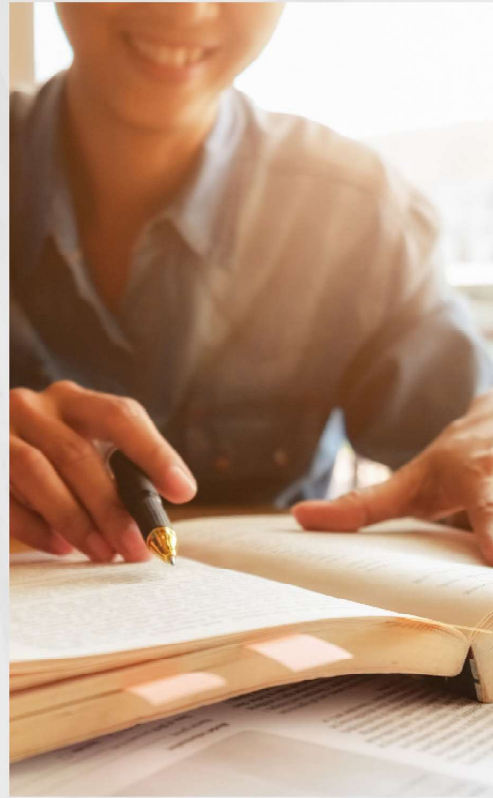

---

Balwa Groups contribution to the community is dedicated to the areas of health, education & social charity etc. Various social development projects have been undertaken by the group, such as providing drinking water fountains, improving village infrastructure, developing parks, construction of schools etc.

Education Dedication

We are committed to providing basic education to underprivileged children. We believe that there is no better place to start than in the corridors of education. Education is both the means as well as the end to a better life. Education empowers an individual to earn his/her livelihood, one's social awareness and helps to understand one's rights in order to evolve as a better citizen.

## CHARITY BEGINS AT HOME

He who has health has hope, and he who has hope has everything. In India access to healthcare still remains a challenge. Urban slum dwellers suffer from adverse health conditions owing to mainly two reasons – first the lack of education and thus the lack of awareness and second the unwillingness to lose a day's wage in order to reach the nearest medical facility. Healthcare for the underprivileged, which is a desperate need thus remains unaddressed.

In our endeavour to support free healthcare services to the underprivileged strata of the society, we have undertaken many initiatives such as supporting the 'Blind Organisation of India', various Dialysis centres in Mumbai and many more such initiatives both in the urban and rural parts of India.

### Embrace The Altruistic Spirit

If you knew what I know about the power of giving, you would not let a single meal pass without sharing it in some way."

– Buddha

"We make a living by what we get, but we make a life by what we give."

This country will not be a good place for any of us to live in unless we make it a good place for all of us to live in."

– Theodore Roosevelt

"I slept and dreamt that life was joy. I awoke and saw that life was service. I acted and behold, service was joy."
